## PRIVATE PRACTICE TRAINING PROGRAM

### Clinician I / Psychotherapist

Located in Milford, CT with beautiful beaches and close to everything, BlueSky Wellness has an opportunity for highly professional, driven, motivated, skilled, and experienced beginning clinicians who are looking to develop their own private practice! In the Private Practice Training Program, you will develop your practice fully by learning all aspects of practice and setting it up, **ALL while you work and get paid!**

The first half is learning all about generalist clinical practice while the final half is refining your specialty, building your practice structure, documentation, systems, and website, contracting with Insurers, refining a caseload of clients that fits your interest and expertise, and finding space to land ... and much, much more! Let us handle the hard stuff for you and support your professional development along the way!

Throughout your time in the program, you will have the opportunity to participate in both Generalist and Speciality training sponsored by BSW (ie. EMDR, IFS, DBT, CBT, PCIT, TF-CBT, etc) to prepare you for competent independent practice! At the full completion of your program, you will receive a lump sum payment to buy your furniture and secure your very own practice home. You will also have the opportunity to receive ongoing billing support and practice supervision to support your transition.

The position is a (3) year program, however you do have the option to finish the program early based on your drive and performance. There is no early termination fee, rather you will lose the opportunity to build your practice, take the caseload with you, and forfeit the end of program bonus.

We are looking for Licensed Associate Clinicians (LMSW or LPC-A) to join a strong, cohesive, and collaborative team that provides outpatient counseling and psychotherapy within our practice with individuals, couples, families, or groups.

Come make BlueSky Wellness your new (temporary) practice home!

## **RESPONSIBILITIES**

Primary responsibilities include provision of outpatient counseling and psychotherapy to individuals, couples, families, and groups which includes ongoing assessment, diagnosis using DSM 5 criteria, treatment planning, implementation of evidence based interventions, case management, discharge planning, and appropriate maintenance of all clinical and administrative documentation. Primary qualifications include:

- Comfort and skill in providing competent outpatient counseling and psychotherapy services to specified populations with a variety of presenting issues and diagnoses.
- Strong clinical engagement, assessment, and treatment skills in an outpatient setting with your preferred populations.
- Knowledge of evidence-based practices such as Psychodynamic, CBT, DBT skills, Motivational Interviewing, Family and Trauma-informed care approaches (although not exclusively).
- Strong documentation skills and the ability to formulate a behaviorally focused and detailed treatment plan is essential.
- Ability to work collaboratively yet *independently* in a fast-paced environment is essential.
- Experience providing telehealth services and use of computer technology preferred.
- Training and expertise in crisis intervention and risk of harm assessment protocols, mandated reporting, HIPAA Compliance, and cultural competency is essential.
- Adherence to all Connecticut laws and ethical codes of the profession is required.
- Establish and maintain referral sources.

## **TYPE OF POSITION:**

Part Time to Full Time, Hourly - (W2):

- Up to 40 hours per week

## **PAY:**

- Great pay!
- Opportunity for OVERTIME!
- End of program lump sum bonus!

## **IDEAL CANDIDATE:**

- Must be willing to blend **both** in-office **and** telehealth. (Hybrid work!).
- Possessing strong diagnostic, intervention, crisis, and overall clinical skills. (Our clients deserve it!)
- Experience with telehealth. (This makes it easier, but we train!)
- Skilled professionalism in a very fast paced environment required. (You are a skilled professional!)
- Good judgment, *excellent* communication / writing skills, and reliability are *necessary*. (SKILLS!)
- Passion and drive for the clinical work and in joining a winning team!
- Readiness and openness to be challenged and learn!

## **BENEFITS:**

- Highly skilled clinical and administrative supervision and coaching provided. (We're here to develop and support YOU!)
- Clinical team support. (You are not alone!)

- Generous training sponsorship. (We want to invest in YOU!)
- Participation in the CT Paid Leave Program. (Just in case!)
- Clinical resource expense reimbursement. (You need tools!)
- Up to 3 weeks PTO. (Self care!)
- CT Professional license expense reimbursement.
- Option for employer sponsored health, dental, vision, and life insurance. (We want you to be well!)
- Opportunity for participation in company 401k! (SAVINGS while you work!)
- End of contract lump sum payment to launch! (We want you succeed!)

#### **SCHEDULE:**

- VERY flexible. (Make your own hours!)
- Employees could be in the office for just a minimum of 15 hours per week!

#### **REQUIREMENTS:**

- Possession and appropriate maintenance of a valid license in Connecticut as an LMSW or LPC-A.
- **1+ years** of **active** and **current** behavioral health experience in a *clinical role*.
- SERIOUS CANDIDATES ONLY NEED APPLY!

#### **WORK LOCATION:**

- In office *and* telehealth as long as insurers continue to cover. When insurers stop reimbursing for telehealth, **the job will require fully in-office provision of services.**
